## MUNICIPAL MANAGER OVERVIEW

### – MR MOKOPANE LETSOALO

This Newsletter is compiled every Quarter to display municipal activities, programmes, events etc to the internal workforce, external communities, private and Public sectors we work with.

As Administration of the Moses Kotane Local Municipality, we are aiming to improve Audit Opinion to a better one. As the municipality we are on the momentum, and keeps on accelerating working towards unqualified or Clean Audit opinion. Our aims is not to redress back to the bondage of Disclaimers Audit Opinion.

Let me applaud MKLM for complying with the request of the Auditor General and National Treasury that there will be no extension date, all municipalities are expected to submit Annual Financial statements and Draft Annual report by the 31st of August 2021, which MKLM successfully managed to submit right on time. With those commitment and a lot of efforts put in place, Moses Kotane Local Municipality is one of the few municipalities that successfully managed to submit AFS on time. Another milestone is that, we are finalising the Supply Chain management process for the reputable service provider who will assist in cleaning of reservoirs and distribution networks of water, as we are aware that scarce water has been a serious challenge that the municipality is now permanently aiming to resolve. These efforts will enable people of Moses Kotane to receive more clean water.

In conclusion, the support we have received from the current council enabled administration to effectively deliver and we believe the incoming Council will also continue supporting and mapping the way forward with regard to rendering more services to the people of Moses Kotane. The administration and incoming Council will develop an Integrated Development plan/ strategy that will put the people of Moses Kotane at the centre.

**Municipal Manager Mr Mokopane Letsoalo.**  
**I thank you**
