Moses Kotane Local Municipality- Bokone Bophirima

FOREWORD FROM MAYOR CLLR NKETU NKOTSWE

It gives me great pleasure to be sharing the June-September 2022 Newsletter to the Moses Kotane Local Municipality's internal and external stakeholders. This newsletter is one of the official communication tools we use to convey messages around the municipality's activities and updates.

As the new administration which took office in November 2021, we would like to provide and affirm the residents and stakeholders that, we want to provide a high-quality and efficient level of service to all 107 MKLM villages and (2) two Townships.

The Constitution of the Republic of South Africa, notably Chapter 2: Bill of Rights, notes that government must meet people's basic needs including water, roads, sanitation, education, health and housing. This Bill of Rights serves as a guiding principle that informs and directs us throughout this journey.

Through engagements and platforms like the Integrated Development Plan (IDP), MPAC roadshows, and monthly community meetings, as the

new administration we are re-affirming our communities that their social well-being is important to us and we encourage communities to always take part and share their inputs.

Moses Kotane Local Municipality is now implementing Private-Public Partnerships through collaboration with various stakeholders to raise the quality of service to the local communities.

The municipality is also committed to executing the District Development Model (DDM), which is a service delivery mechanism that aims to improve the coherence, integration of capital and resources into one plan that positively fosters service delivery.

I kindly request that all internal and external stakeholders fully contribute to the success of the DDM programme which will assist in eradicating poverty, produce local jobs and boost the economy.

Some of our successes are as follows:

Completed:

- Construction of community halls at Ramokokastad and Siga;
- Rehabilitation of the Madikwe land fill site in compliance with waste management legislation;
- Construction of new internal roads and storm water projects at Ward 32, Ward 11, Ward 2, ward 17 to mention few.

In summary, this shows that as Moses Kotane Local Municipality we are a capable local government institution which is able to provide effective and efficient services to its people. We will continue to listen and work with our people to bridge the inequality gap and take Moses Kotane Local Municipality forward.

Our communities have the right to be informed with municipal information, and we aim to provide continuous communication through this newsletter, the Municipal Facebook account, Website and local radio stations namely Kgatleng and Village FM. Stay Tuned, Se fetwe ke Sepe!

I thank You!

Mayor, Cllr Nketswe.
