This report has been prepared in terms of the Local Government: Municipal Finance Management Act, No. 56 of 2003: Municipal Budget and reporting Regulations, Government Gazette 32141, 17 April 2009.

### **1) Mayor's Report**

In terms of section 72 (1) (a) and 52 (d) of the Local Government: Municipal Finance Management Act No. 56 of 2003 (MFMA), the Accounting Officer must by 25 January of each year assess the performance of the municipality during the first half of the financial year. A report of such assessment must in terms of section 72 (1) (b) of the Local Government: Municipal Finance Management Act No. 56 of 2003 be submitted to the Executive Mayor, Provincial Treasury and National Treasury.

Once the Mayor has considered the section 72 report, such a report must be submitted to council by the 31 January each year as required in terms of section 54 (f) of the Local Government: Municipal Finance Management Act No. 56 of 2003. The mid-year budget and performance assessment report and supporting tables of Moses Kotane Local Municipality, was also prepared in accordance with the requirements of MFMA and the Municipal Budget and Reporting Regulations.

In order to achieve our goals as set out in our Integrated Development Plan we have to strive for institutional excellence through institutional re-engineering, effective leadership and effective long term development planning. Although there has been significant progress made towards realization of the set performance objectives for the period under review, there are however still a number of challenges that require attention and these include the following:

- State of our infrastructure backlogs and the need to upgrade the existing infrastructure (roads, sewerage and water)
- Unfunded budget
- Low revenue Collection
- Revenue losses due to aging water infrastructure or illegal connections and distribution losses;
- Institutional transformation (National Treasury Reforms)

We believe that having filled all senior managers position will assist the administration of the municipality in effectively exercising adequate and sound financial management of the institution, compliance with financial management norms and standards as well as other aspects of performance reporting.

In conclusion, I am confident that the mid-term performance results as contained in this report sets a tone for overall improved institutional performance results for this financial year and based on these results and the outlook of the remaining term of this financial year.

Councilor: Nketu Nkotswe  
Mayor

## Operating Revenue Graph

- a) Revenue generated for the reporting period amount to R648.2 million or 60% against the budget, this is 10% above the expected norm.
- b) The overperformance is attributed to the receipt of the December equitable share tranche.
- c) The budget performance on the following revenue items performed below the target of 50%; i.e.
  - Water (42%)
  - Sanitation (39%) (Refer to Table C4 – Financial Performance).
- d) Revenue generated from Interest on Investment has overperformed by 40%, this is due to high interest rates that was not anticipated. The item requires an upward adjustment.
- e) Non-billing on Fines and Penalties is due to lack of integration between system utilised at Traffic Unit and the core financial system. A journal will therefore be processed for towards the end of the year to account for the revenue generated.

- f) The over performance on Transfer and Subsidies is due to the grants money which are received as legislated in tranches rather than on an equal instalment.

The analysis on the material variation is provided in the tables below:

**Major revenue variances against the revenue budget are as follows;**

- Water and Sanitation require downward adjustment due to underperformance.
- Traffic Fines: A journal must be processed in order to update the billing of traffic fines.
- Licences and Permits: A journal must be processed in order to update the revenue generated from licences and permits.

**Revenue collection**

The table above reflects actual collection against the billing for property rates and service charges for the reporting period, wherein R104.7 million or 59% was received. According to Treasury norms, municipalities are expected to collect at least 95% of the billed revenue. Revenue collection remains a challenge and a threat to the financial sustainability of the municipality.

<b>REVENUE PERFORMANCE AS AT 31 DECEMBER 2023</b>			
<b>Description</b>	<b>Billing</b>	<b>Actual Receipts</b>	<b>Actual/Billing</b>
Property Rates	74 626 047,93	64 647 972,29	87%

<b>Total</b>	<b>176 126 208</b>	<b>104 762 309</b>	<b>59%</b>

**Table A: Summary of collection rates**

- The levies represent all the amounts billed, including indigent accounts, but excluding prepaid water sales
- The levied amount is net of the free basic amount.
- The payment amount does not include the indigent subsidy, as the free basic services are deducted from the levies.
- If the free basic services amounts are included in the levies and in the payments, the payment level will be slightly higher.

**Distribution losses**

The norms are set by National Treasury as per MFMA Circular 71- **Uniform Ratios and Norms (January 2014) paragraph B –Distribution losses**

The water loss has increased to 13% in 2022/2023 financial year. This is an increase of 7% when compared to the 6% recorded for 2021/2022 financial year.

### Detailed Revenue Analysis

Total revenue generated for the 2<sup>nd</sup> quarter amount to R648.2 million. Revenue from Property Rates, Water, Refuse Removal, and Interest are the major sources of revenue for the Municipality.

Revenue for the second quarter equates to 60% when compared to the budget, this is 10% higher than the target of 50%. The over performance is attributed to the receipts of equitable shares.

Of the total amount of revenue generated for the reporting period, 34% relates to own revenue while operational grants contributed 66%. The above indicates that the municipality is relies on government grants to fund its daily operations.

REVENUE PERFORMANCE AS AT 31 DECEMBER 2023					
Description	Budget	Billing	Billing/ Budget	Actual Receipts	Actual/ Billing
Property Rates	154,525,327	74,626,048	48%	64,647,972	87%
Water	222,520,040	92,817,686	42%	39,005,128	42%
Sanitation	6,036,429	2,327,386	39%	905,245	39%
Refuse	12,276,619	6,355,089	52%	203,964	3%
<b>Total</b>	<b>395,358,415.00</b>	<b>176,126,208</b>	<b>45%</b>	<b>104,762,309</b>	<b>59%</b>

Property Rates billing amount to R74.6 or 48% of the budgeted amount of R154.5. million, actual cash receipts amount to R64.6 (87%) of the billed amount for the reporting period, i.e. July – December 2023

Water revenue reflects billing of 42% (R92.8 million) of the budgeted amount of R225 927 605. Water revenue has underperformed by 8% mainly due to inconsistent water supply. Actual cash receipts amount to R39 million or 42% when compared to the billed amount.

The low collection rate on water service has a negative impact on the cash flow of the municipality and if this trend of non-payment continues, the municipality will not be in the position to pay all the creditors within the legislated time frame. This will further have an influence on the quality of the service due lack of funds to perform routine maintenance on water infrastructure.

Revenue raised from sanitation amount to R2.3 million or 39% against the budgeted amount of R6 million. Actual cash receipts amount to R905,245 (39%) of the billed amount.

The above indicates that water and sanitation services have billed below the expected 50%. The underperformance occurred as a result of shortage of water during the first six months of the financial year. It is further noted that collection of revenue remains low for the reporting period.

Revenue generated from refuse removal service amount to R6.3 million 52% of the appropriated budget of R12.2 million. Actual cash receipts amount to R203,963 or 3% of the billed amount.

Revenue generated interest earned from investment amounts to R5.6 million or 90% when compared to the budget of R6.2 million. The item will be adjusted accordingly during the adjustment budget.

### Detailed Operating Expenditure Analysis

The year to date expenditure as at the end of the 2<sup>nd</sup> quarter amount to R1,216,938,620 or 100% of the total operating expenditure budget of R1,212,357,874. The operating expenditure incurred for the reporting period is 50.4% above the target of 50% as at the end of the second quarter.

Overperformance on the operating expenditure mainly occurred as a result of bad debts written off against the debtors' book as per Council Resolution (167/07/2023). The bad debts written off reported by 31<sup>st</sup> December 2023 amount R806,642,451 which equates 66% of the total expenditure;

The provision of bad debts is a non-cash item and does not have impact on the cash flow of the municipality. It however gives an indication that the municipality is not performing as expected on revenue collection, the higher the provision, the lower the collection rate.

Current spending patterns on the line items indicates overspending as at second quarter while other items will exceed the budget, however cost containment measures will be strengthened to curb the over spending.

Employee Related Costs (Incl. Councillors remuneration) as at the mid-year amount to R162.9 million or 50% of the budget.

Contracted services – expenditure incurred to date amount to R75.7 million or 54% of the allocated budget. Overspending emanated from repairs and maintenance, particularly water maintenance and water/sewer quality control.

Bulk Purchases (Electricity Boreholes) – Expenditure to date amount to R16.5 million or 66% of the budget.
