As the Accounting Officer of Moses Kotane Local Municipality, let me take this opportunity to acknowledge the Council, Officials and various stakeholders that continues to work together in taking this municipality forward. The Municipality has in the past few months/ years been applauded for their improvement. End of November last year, as the Municipal Manager of Moses Kotane Local Municipality I was asked to share **MKLM's BEST PRACTICE** on the **North West SALGA Provincial Members Assembly** that was held at Rustenburg. It was a platform for preparation of the **SALGA National Members Assembly**.

Let me applaud Moses Kotane Local Municipality, as it was used as a Case study: **The Municipality that has immensely improved with regard to the Audit outcomes** As the Municipal Manager of this Municipality, I shared lessons learnt on the Moses Kotane road travelled towards our improvement from the bondage of **Disclaimers**. Let me state that, conducting an interim Audit of AFS (Annual Financial statements) helped Moses Kotane Local Municipality to clear a lot of their Audit findings. The committed management and the leadership of Moses Kotane local Municipality showed continuous commitment, dedication towards improving as well as changing the Audit outcomes of this Municipality.

Moses Kotane Local Municipality is currently conducting phase 2 of the investigation of UIFW (Unauthorised, irregular, fruitless & wasteful expenditure) and some of the identified gaps are already written off and avoided from re-occurring. Though it is a hectic and slow process, however the municipality's leadership is committed to clear the previous UIFW register.

With all hands on the Deck, Moses Kotane Local Municipality is anticipating improved Audit outcome said Municipal Manager Mr Mokopane Letsoalo.

I thank you.
